A Member of the THORN EMI Group

This volume is a supplement to the third edition of the Brimar CRT Data Handbook. The original Handbook is published in two volumes.

Volume 1
Operational recommendations
Safety recommendations
Aspects of Design Reports

Volume 2
Tube index
Tube selection tables
Design data of phosphors
Design data of accessories
Design data of tubes

This supplement contains data on new tube types designed to maintain the Brimar range as the most comprehensive available and to meet the requirements of modern equipment.

This supplement should be read in conjunction with Volumes 1 and 2

Extreme care has been taken in the preparation of the data to ensure these volumes are as comprehensive, accurate and up to date as possible at the time of going to press. Before designing tubes into equipment, it is advisable to check with the sales office or authorised agents that availability and data remain unaltered.

HEALTH AND SAFETY AT WORK ACT 1974

Attention is drawn to the recommendations under this heading in the Safety Recommendations in Volume one.

WARNING

These tubes should be used in accordance with their published ratings, and in conformity with the operational recommendations of the company's data handbook. The company will not entertain claims for loss or damage where this advice has been disregarded.

APPLICATIONS SERVICE

The Applications Laboratory provide a free advisory service to equipment manufacturers.
